

## Testing of JGEC Alumni Association website – Step wise screenshots (5<sup>th</sup> March 2024)

**Observation # 1:** Alignment of bullets is not aligned. Also, there is no functionality of these 3 bullets, all are same when clicked.

**Observation # 2:** Why are social media links in the left panel of home page when the same set of icons are there in the bottom of the page? This is duplicate information.

**Observation # 3:** Camel Casing is not consistent.

**Observation # 4:**

- (a) JGEC Registration number should not be mandatory
- (b) blood group for O+ve is mis-spelled as O+e
- (c) There is an unexpected data validation which says college nickname must be atleast 10 characters long. This is not needed.
- (d) I could once again register with year of graduation as 2033. This is wrong as the maximum graduation year can be current year + 4

**Observation # 6:** On clicking My Booking, multiple errors popped up.

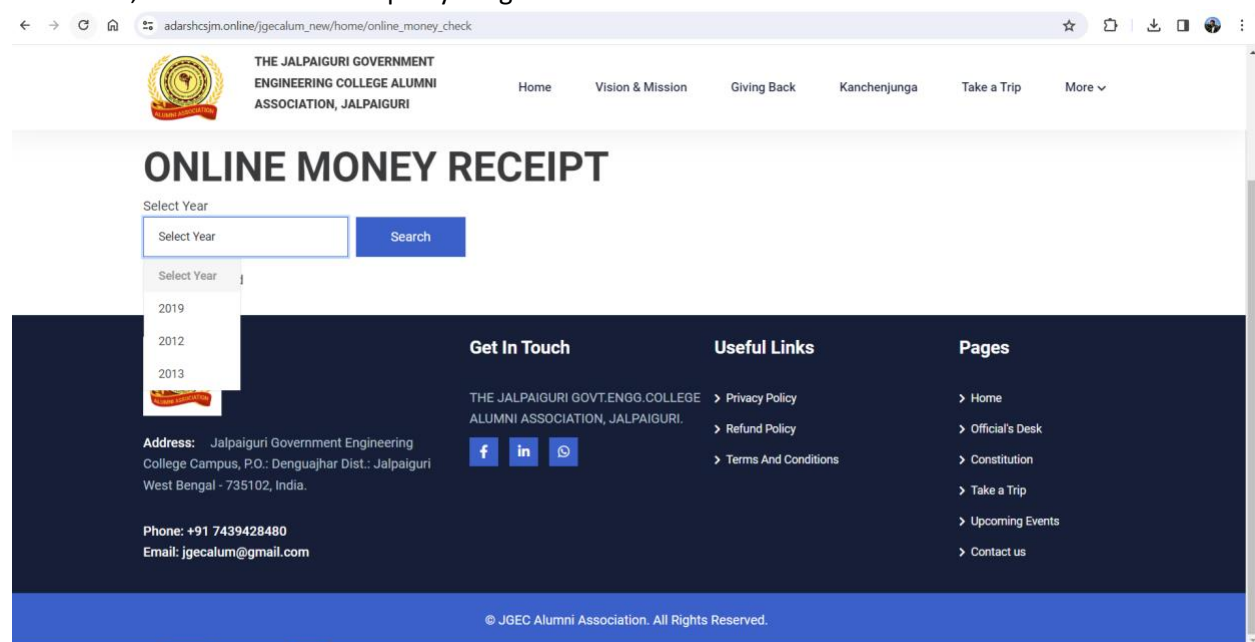

**Observation # 7:** The room pricing is not reflecting accurately based on the duration of booking. Example, below snippet is taken from PhonePe for a room booking “Tista” for 2 nights. Ideally should have been Rs 1500\*2= Rs 3000. It is showing Rs 1.

**Observation # 8:** On registration, the email acknowledgement received still has wrong English with many spelling/grammatical mistakes.

**Observation # 9:** Why do I see only 3 years for Online Money Receipt? If a user does not have any past donations, it should not show up anything.

**Observation # 10:** Upon account activation, the acknowledgement email has inaccurate English/grammar
